The American Board of Certification is the nation's premier legal specialty certification organization — certifying attorneys as specialists in business bankruptcy, consumer bankruptcy and creditors' rights law.

The ABC is sponsored by the American Bankruptcy Institute and the Commercial Law League of America. All three ABC programs are accredited by the American Bar Association.

ABC certification is available to all qualified bankruptcy and creditors' rights attorneys. Attorneys interested in becoming ABC-certified specialists can find more information about the application process for certification and the benefits of certification on the ABC website.

The following list includes the dates and places where the ABC will be administering exams, which are part of the certification process, during the beginning of 2013:

2013 Exam Schedule

ABC exams are held at conferences of ABC sponsors — the American Bankruptcy Institute (ABI) and the Commercial Law League of America (CLLA) — in addition to other industry conferences. Please check the exam date you wish to register for:
